Live, Online Therapy is Making a Big Difference

Opportunity

As a school administrator, you know firsthand that partnering with a dependable provider makes a world of difference. We truly care about making a difference for you, for the district, and especially for the kids. Dependable tools for monitoring, transparency, and accountability bring you the greatest peace of mind. eLuma's track record of 100% fulfillment on all jobs is only one piece of the puzzle that will create more value for your district. Many students with special education needs experience great challenges academically, mentally, and socially. With the rising number of students needing services under the Individuals with Disabilities Education Act (IDEA), there is a higher demand for therapy services, Individualized Education Program (IEP) support staff, and specialized personnel. We have to think differently if we're going to meet every child's needs. Blending online and onsite therapy can tremendously increase the quality of therapy in your special education program - even to the tune of increasing productivity by 10-15%, connecting your students with specialized and credentialed therapists, and staffing with great precision. The districts we work with have realized thousands of dollars in financial and economic savings, and we believe your district has this same potential.
