Computer Software

The unauthorized copying of any computer software which is licensed or protected by copyright is theft. Failure to observe software copyrights and/or license agreements may result in disciplinary action by the Charter School and/or legal action by the copyright owner.

No Charter School-owned computing resources should be used for unauthorized commercial purposes. Illegal copies of copyrighted programs may not be made or used on Charter School equipment. The legal or insurance protection of the Charter School will not be extended to employees who violate copyright laws.

The Director or designee is the only individual who may sign license agreements for software for the Charter School.
